RE: Circular of Information Update

---

FDA accepted AABB's October 2017 *Circular of Information for the Use of Human Blood and Blood Components* (Circular of Information). In accordance with Food and Drug Administration (FDA) Guidance for Industry: An Acceptable Circular of Information for the Use of Human Blood and Blood Components, December 2017, Community Blood Center is providing an update to the Circular of Information found in the link below.

The following information is to be considered a part of the Circular of Information as it applies to the *General Information for Whole Blood and All Blood Components, Testing of Donor Blood Section*.

A licensed nucleic acid test (NAT) for Zika Virus RNA has been performed and found to be nonreactive.
